

NGUYEN VAN MINH

UI/UX DESIGNER INTERN

(+84) 353 999 798 | nvminh1602@gmail.com | nvminh162.id.vn

Ho Chi Minh City, Vietnam

SUMMARY

Final-year Software Engineering student with hands-on project experience designing and implementing responsive web and mobile interfaces using React.js, Next.js, React Native, TypeScript, Tailwind CSS, Redux Toolkit, and Zustand. Familiar with website layout, reusable components, responsive design, dark/light themes, dashboards, interaction flows, animations, and polished micro-interactions. Able to use Figma, Google Stitch, and Claude for design exploration, rapid prototyping, and design-to-code support. Seeking a UI/UX Designer Intern position to strengthen visual communication, interface design, and user-centered product development skills.

EDUCATION

Industrial University of Ho Chi Minh City (IUH)

Ho Chi Minh City, Vietnam

Major: Software Engineering

Sep 2022 – Present

GPA: 3.2 / 4.0

SKILLS

- **Programming Languages:** JavaScript, TypeScript, Java, Python, SQL
- **Frameworks/Platforms:**
 - React.js, Next.js, React Native, Redux Toolkit, Zustand, TanStack Query, HTML5, CSS3, Tailwind CSS
 - Spring Boot, Spring MVC, Spring Security, Spring Data JPA, WebSocket, Hibernate
- **Database:** MySQL, MariaDB, PostgreSQL, MongoDB, Redis
- **DevOps & Cloud:** Git, GitLab, GitHub, GitHub Actions, Docker, AWS
- **Others:**
 - Figma, Google Stitch, Claude for AI-assisted design exploration, website layout design, responsive interface design, and design-to-code implementation
 - Reusable components, state management, dark/light themes, micro-interactions, RESTful API integration, and frontend-backend integration
 - Teamwork, communication, Agile/Scrum collaboration, analytical thinking, testing, debugging, troubleshooting, and code quality improvement
 - English: Reading technical documentation

PROJECTS

Nguyen Van Minh Portfolio

Individual Project | Role: Frontend Developer

- **Description:** Responsive personal portfolio combining interface design and frontend implementation, featuring reusable components, section-based layouts, dark/light theming, 3D Spline scenes, scroll-driven animations, smooth navigation, project and resume showcases, and a contact experience.

- **Technologies:** Next.js, React.js, TypeScript, Tailwind CSS, Sass, Framer Motion, Three.js, GSAP, Lenis
- **Responsibilities**
 - Designed and built a responsive section-based interface with reusable components, dark/light theme support, project presentation, resume viewing, and contact surfaces.
 - Created scroll-driven interactions, smooth scrolling, particle backgrounds, custom cursor behavior, 3D/Spline scenes, and polished micro-interactions.
 - Added SEO metadata and integrated Vercel Analytics and Speed Insights for website analytics and performance monitoring.
- **Repository:** <https://github.com/nvminh162/nguyenvanminh-portfolio-web>

Chatly Social Platform

Team size: 4 | Role: Full-stack Developer

- **Description:** A real-time social platform with responsive web and mobile interfaces for private and group conversations, social feeds, stories, reels, media sharing, and voice/video communication.
- **Technologies:** React.js, React Native, Zustand, Spring Boot, WebSocket, PostgreSQL, MongoDB, AWS S3, Agora
- **Responsibilities**
 - Designed and built responsive social interfaces for feeds, conversations, real-time chat, stories, and reels using reusable components and RESTful API integration.
 - Implemented interaction states for private and group conversations, including typing and seen status, reactions, mentions, unread counts, and search.
 - Implemented voice and video call experiences with shared call state, incoming-call interfaces, socket-based signaling, and call history.
- **Repository:** <https://github.com/nvminh162/chatly-social-platform>

Aurora Hotel Management System

Team size: 4 | Role: Full-stack Developer

- **Description:** An enterprise hotel management platform with responsive admin and customer interfaces, booking workflows, revenue dashboards, staff scheduling, role-based user flows, VNPay payments, and an AI-powered RAG assistant.
- **Technologies:** React.js, Redux Toolkit, Tailwind CSS, Spring Boot, PostgreSQL, LangChain4j, pgvector, Docker, GitHub Actions, AWS
- **Responsibilities**
 - Designed and built responsive admin and customer interfaces with React.js, Redux Toolkit, and Tailwind CSS for booking workflows, dashboards, hotel operations, and management modules.
 - Implemented interface flows supporting five user roles and more than 70 permissions across administrative and customer-facing modules.
 - Integrated an AI-powered assistant interface with document upload, semantic search, and streaming responses using Google Gemini, LangChain4j, and pgvector.
- **Repository:** <https://github.com/nvminh162/aurora-hotel-management-system>

AWARDS

Academic Excellence Scholarship - Partial (50%)

2024 - 2025

Industrial University of Ho Chi Minh City | Academic Year GPA: 3.42/4.0
